

ALEJANDRO FERRÁN

TELECOMMUNICATION AND
ELECTRONIC ENGINEER

Telecommunications Engineer and Backend Developer with over 5 years of experience. Focused on building reliable APIs with Python, automating workflows, and supporting cloud infrastructure. Committed to continuous learning and implementing CI/CD practices to improve team efficiency.

EXPERIENCE

CLOUD & SYSTEMS ENGINEER - NEWHOTEL (JAN 2025 - ACT)

- Developed automation workflows using **Azure DevOps** and **GitHub Actions** to streamline repetitive tasks and deployments.
- Built internal tools in Python and Go for data migration and automated data cleaning.
- Implemented geolocation systems with Cloudflare Workers to assist in traffic filtering.
- Supported the management and scaling of Azure infrastructure (App Services, Function Apps, Blob Storage) and VNET configurations.
- Integrated APIs with Grafana for real-time service monitoring.

FULL-STACK DEVELOPER - FREELANCE (MAR 2021 - JAN 2024)

- Built scalable APIs using Python, Django, and FastAPI for various web applications.
- Configured Nginx and uWSGI servers for production environments within AWS.
- Designed data storage solutions using PostgreSQL to handle transactional data.

FULL-STACK DEVELOPER | ASSETMINDR (JAN 2023 - FEB 2024)

- Contributed to frontend development using Vue.js to create and maintain interactive components.
- Developed server logic and APIs using AWS Lambda and the Serverless Framework.
- Integrated secure authentication services with AWS Cognito.
- Created data visualizations for interactive dashboards.

PYTHON DEVELOPER | CONNUS ONLINE SHOP (MAR 2022 - JAN 2024)

- Automated Linux system administration tasks using Python scripts (os, subprocess, sys).
- Developed security scripts for network vulnerability monitoring and system testing.

DATA SCIENTIST | TECHNOLOGICAL UNIVERSITY OF HAVANA (SEP 2018 - SEP 2022)

- Implemented Machine Learning and computer vision algorithms (OpenCV) for access control systems.
- Trained convolutional neural networks on HPC clusters using TensorFlow and Keras.

EDUCATION

TELECOMMUNICATIONS AND ELECTRONICS ENGINEER

Technological University of Havana "José A. E cheverría" (CUJAE)
2017 - 2021

+351 930530170

TECHNICAL SKILLS

- Python
- Golang
- Typescript
- PostgreSQL
- Oracle
- AWS
- Linux
- Nginx
- Git, Git-Flow
- Docker
- Cloudflare Administrator
- Azure DevOps
- Github Actions

SOCIAL SKILLS

- Analytical capacity
- Adaptability
- Time management
- Team work

LANGUAGE

Español (native)

Inglés (midle)

Portugués (midle)
